

inSchool LMS: Student Module - Quick Guide

What Students Do With Courses and Quizzes

Activity 1: Browsing Available Courses

What Happens

A student logs in and sees all the courses they can enroll in or take quizzes for.

What They See

A grid of course cards showing:

- Course name
- Course picture

- Quizzes available
- "NEW" badge for recently added courses

How It Works

The system shows only courses the student:

- Is enrolled in
- Can access
- Haven't completed yet

Closed or finished courses don't show - the database filters them out automatically.

Taking a Quiz

1. Student clicks on a course
2. Sees available quizzes for that course
3. Enters the **access passcode** (given by teacher)
4. System verifies passcode
5. If correct → Quiz unlocks

Why the passcode? Teachers can share the code only with their class, preventing unauthorized access.

Activity 2: Taking a Quiz (The Exam)

What Happens

Student takes the quiz under a time limit.

Step-by-Step

1. **Timer Starts**: Quiz has a time limit (e.g., 60 minutes)
2. **Read Questions**: Questions appear one at a time
3. **Select Answers**: Student clicks radio button for each answer
4. **Submit**: Click "Submit Quiz" when done

The Timer

- Countdown appears on screen: 59:45, 59:44, 59:43...
- Counts down to 00:00
- **When time runs out**: Quiz auto-submits automatically
- Student can't keep working after time expires

Why Auto-Submit?

Prevents students from taking extra time or avoiding submission.

During Quiz

- Can't go back to previous questions (depends on teacher settings)
- Can't refresh page to reset timer
- Must select one answer per question

Multiple Choice Format

For each question:

- Option A
- Option B
- Option C
- Option D

Student picks ONE answer only.

Submit

Click "Submit Quiz" button to:

1. Send answers to server
2. Server auto-grades
3. Grades appear instantly

Activity 3: Viewing Grade History

What Student Sees

A table of all past quizzes showing:

Course	Quiz Name	Score	Grade
Biology 101	Midterm	85%	B
English 102	Essay Quiz	92%	A
Math 201	Final Exam	78%	C

Color-Coded Grades

- **Green** = A (Excellent)
- **Yellow** = B-C (Good/Okay)
- **Red** = D-F (Needs Help)

What's Locked

Once a quiz is submitted and graded:

- Student can **view** their answers
- Student **cannot retake** the quiz
- Student **cannot change** their answers
- Grade is **permanent**

Key Features

Feature	What It Does	Why It Matters
Course Filtering	Shows only courses student can access	No confusion about available courses
Passcode Entry	Must enter code to unlock quiz	Prevents unauthorized access
Countdown Timer	Counts down during quiz	Student knows time remaining
Auto-Submit	Quiz auto-submits when time ends	No extra time possible
Instant Grading	Score appears immediately after submit	Student gets instant feedback
Color Grades	Green A, Red F	Easy to see performance level
Grade History	All past quizzes saved	Student can review progress
Can't Cheat	Can't go back, refresh, or retake	Protects academic integrity

Simple Examples

Example 1: Taking a Quiz

Student: "I want to take the Biology quiz"
System: "Please enter the access passcode"

```
Student: "BIOLOGY101"
System: "Passcode correct! Quiz unlocking..."

Student: "Question 1: What is photosynthesis?"
System: "Timer: 59:45 remaining"
Student: "Selects Option B"

Student: "Question 2: How many..."
System: "Timer: 52:15 remaining"
Student: "Selects Option A"

Student: "I'm done, submitting"
System: "Quiz received. Grading..."
System: "Your score: 85% (Grade B)"
```

Example 2: Timer Runs Out

```
System: "Timer: 00:30 remaining"
System: "Timer: 00:10 remaining"
System: "Timer: 00:00"
System: "TIME'S UP! Auto-submitting your quiz..."
System: "Quiz submitted with 8 out of 10 correct"
System: "Your score: 80% (Grade B-)"
```

What If?

What if student refreshes during quiz?

What happens: Page reloads, timer resets to full time

Why it's safe: System knows when quiz started, calculates remaining time from server

What if student closes browser?

What happens: Their answers are saved up to that point

Why it's safe: Can log back in later, answers still there (if quiz not over)

What if student tries to retake a quiz?

What happens: System blocks it - shows "Quiz already submitted"

Why it's safe: Prevents cheating through multiple attempts

What if student enters wrong passcode?

What happens: "Passcode incorrect. Try again."

Why it's safe: Only authorized students can take quiz

The Presenter's Simple Pitch

// "The Student Module lets students take quizzes securely and track their performance.

Browsing: Students see all available courses and quizzes they can take. Closed quizzes don't show up—the system filters them automatically.

Taking Quizzes: Students enter a passcode to unlock the exam. A countdown timer tracks remaining time. When time runs out, the quiz auto-submits—no exceptions. Students can't cheat by refreshing or going back.

Instant Grading: The system instantly auto-grades the quiz and shows the score and letter grade.

History: Students can review all past quizzes with scores. Grades are color-coded for easy understanding. Once submitted, quizzes are locked—no retakes allowed.

Every feature protects academic integrity while keeping the experience simple and straightforward for students."

Quick Summary

Browsing: See courses and quizzes you can access. Closed ones don't show.

Passcode: Enter teacher's passcode to unlock quiz.

Timer: Quiz counts down. Auto-submits when time ends.

Answers: Pick one option per question. Can't change after submit.

Grading: Instant score and letter grade.

History: View all past quizzes. Grades are permanent and color-coded.

FAQ

Q: Can I retake a quiz? A: No. Once submitted, it's locked. You see your grade but can't retake it.

Q: What if I run out of time? A: Quiz auto-submits with whatever you answered. You get a grade based on correct answers so far.

Q: Can I see which questions I got wrong? A: Yes. After submission, you can review your answers and the correct answers.

Q: What if I forget the passcode? A: Ask your teacher for the access code.

Q: Is my grade final? A: Yes. Once submitted, the grade is locked and can't be changed.

Q: Can I save my quiz and come back later? A: Only your submitted answers are saved. If you leave before submitting, those answers are lost.
